

I do not support the proposal to allow LPFM stations to have priority over current FM translator service. I listen to K-LOVE as a resident of Virginia Beach and find it to a family-friendly station that I cannot find elsewhere. If K-LOVE were to be replaced by an LPFM station, we would lose our access to the wholesome, positive and encouraging message they send. As a listener and financial supporter, I believe that the community benefits enormously from the wholesome values expressed by K-LOVE, and would not want them forced off of our airways. Please allow them to continue their service to our community. Thank you.
